FAIRS Export Certificate Report

Approved By:

Jude Akhidenor

Prepared By:

Mohamed Taha

Report Highlights:

This report was prepared by the Office of Agricultural Affairs in Dubai for U.S. exporters of food and agricultural products. The report provides guidance on required certificates for food products shipped to the United Arab Emirates. While all possible care was taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped.

Section I. List of All Export Certificates Required By Government (Matrix) :

Some U.S. exporters have had difficulty obtaining health certificates, especially for processed and consumer-ready food products. Exporters are encouraged to obtain health certificates in accordance with local import regulations. The decision to utilize the free sale certificate is only applicable when exporters are not able to secure the regular health certificate.

Section II. Purpose of Specific Export Certificate(s)

See Section I above

Section III. Specific Attestations Required on Export Certificate(s)

- Halal slaughter and health certificates for meats and poultry and their products are not required to be notarized by the Arab American Chamber of Commerce in the U.S. or the U.A.E. Embassy or Consulate in the United States.
- See appendix for certificate samples

Section IV. Government Certificate's Legal Entry Requirements

- Original certificates must accompany shipment at the time of entry. Sometimes importers are allowed to have the documents sent to their banks.

- Certificates are used for only the accompanying shipment since it carries the details of the shipment.
- In many cases, federal agencies do not issue health certificates for processed and consumer-ready food products. U.S. “State” issued export or health certificates are acceptable.
- Modification to any issued certificate accompanying a shipped product is not permitted.

Section V. Other Certification/Accreditation Requirements

- Original invoice, bill of lading and packing list are required to accompany the above-referenced certificates to meet documentation requirements of the Customs Authority for the release of the shipment.
